## Clue 2

Clue 2, step 2. Make 9

Clue 2, step 3. Make 9

Clue 2, step 4. Unit 2: Make 9

## *Clue 2

1. Gather eighteen $21 / 2^{\prime \prime} \times 21 / 2^{\prime \prime}$ background squares, nine $21 / 2^{\prime \prime} \times 4$ $1 / 2^{\prime \prime}$ background rectangles, nine coordinate-A squares $21 / 2^{\prime \prime} \times 21 / 2^{\prime \prime}$ and nine $21 / 2^{\prime \prime} \times 61 / 2^{\prime \prime}$ coordinate- $B$ rectangles.
2. Sew two background squares to the opposite sides of each coordinate-A square as shown. Press the seams toward the center coordinate square. See pressing arrows. Measure $21 / 2^{\prime \prime} \times 61 / 2 \prime$. Make nine strips.
3. Sew a $21 / 2^{\prime \prime} \times 6 \frac{1}{2} 2^{\prime \prime}$ coordinate-B rectangle to each strip completed in step 2. Press the seam allowances toward the coordinate rectangle. Measure $41 / 2^{\prime \prime} \times 61 / 2^{\prime \prime}$.
4. Sew one $21 / 2^{\prime \prime} \times 41 / 2^{\prime \prime}$ background rectangle to each unit completed in step 3 as shown. Pay close attention to the position of the coordinate pieces. Make sure the coordinate-B rectangle is on the left and the background rectangle is on the top.

Press the seam allowances toward the background rectangle. See pressing arrows. Measure $41 / 2^{\prime \prime} \times 8 \frac{112 \prime}{}$. This is Unit 2, make nine.
